Dataset: 'list_80_cant_TN.RDS'

'list_80_cant_TN.RDS' is a dataset that is a list of 19 cantons throughout Switzerland that contains information on daily mean temperature, number of tropical nights and number of daily deaths throughout each district for the corresponding canton. The following variables can be found in the dataset:

Variables:

Name	Name of the district in Switzerland
Date	Date of the time series analysis (i.e. 1980-01-01)
Year	Year
Month	Month of the year (1:12)
Day	Day of the month (1:31)
Yday	Day of the year (1:365)
Dow	Day of the week (1:7)
TN.min	Tropical night (0:1)
Daily_mean	Average daily mean temperature throughout the district.
Nightly.w.min	Night-time minimum temperature throughout the district.
Deaths	Number of deaths over day per district
Mortu75	Number of deaths in the under 75 years of age group by district
Morvoer75	Number of daily deaths in the 75 years and older age group by district
Male	Number of daily deaths amongst all males by district
Female	Number of daily deaths amongst all females by district.
